

The Desirable Residence for your fabulous felines

Cats will love the **KatKabin DezRez**

The new KatKabin DezRez is the most innovatively designed outdoor cat house on the market. Safe, protective and secure.

The **KatKabin DezRez** is designed to give cats the freedom they need to spend time outdoors while also providing comfort, safety and shelter – and peace of mind for owners. This luxurious outdoor cat house gives cats all the comfort and safety they are used to indoors. Standing above the ground, it provides a warm, cosy and shaded insulated den for napping, stretching and relaxing and ensures your cat is both protected from the weather and is safe and relaxed.

The **KatKabin DezRez** is available in a beautiful range of colours which can either blend into your garden or make a stunning design statement!

In addition, using a **KatKabin DezRez** avoids the security risks or installation damage to property connected with fitting a conventional catflap.

Features

- Developed to withstand the widest range of temperature extremes
- Made from high grade, fade-resistant materials
- Fixing holes in the four feet enable the KatKabin to be fixed to decking or paved surfaces if necessary
- Rear holes for air ventilation
- The oval shape helps the air to circulate inside – warm air isn't trapped at the top as in other shapes but circulates easily
- Supplied with a removable KatFlap door and insulating cushion as standard
- An optional internal Winter Warmer is available which lines the upper parts of the KatKabin DezRez to keep your cat warm even in the coldest conditions.
- Overall dimensions 55cm x 41cm x 32cm

"With the KatKabin DezRez I no longer worry if my cat stays out in cold or wet weather"
